January 7th, 2014

Dear Reader,

The U.S. government's revitalization of the EB-5 visa program to encourage wealthy foreign entrepreneurs to invest in the development of U.S. business enterprises is already exponentially boosting the number of Chinese investors desiring to come to the U.S. The EB-5 program is an ingenious response to the infamous "brain drain" created by outsourcing. In fact, EB-5 has been dubbed the "brain gain."

In 2005, the U.S. Citizenship and Immigration Services recorded 332 I-526 applications. The number of applications more than tripled, reaching 1,257 by 2008. More than 6,000 applications were submitted in 2012. As of April 2013, there were already nearly 6,000 more I-526 applications pending. This is a **\$3 to \$6 billion business** at the very least – and the applications are coming faster than they can be handled.

Still, there are literally hundreds of thousands more Chinese families who possess the U.S. government-required resources and who are searching for projects in which to invest their fortunes. American Corporate Services, Inc. (ACS) has extensively researched the booming EB-5 market in China and has learned the "ins-and-outs" of navigating what usually appears to be a maze of dead-ends for Regional Centers & attorneys who are unfamiliar with the Chinese culture and system.

ACS has published a practical guide for Regional Centers, attorneys and other members of EB-5 community interested in developing their business through the EB-5 opportunity in China. ***"How to Find Chinese Investors, Clients & Agents for Your EB-5 Programs & Services"*** shares both basic and detailed information that will help you become more successful in your EB-5 business. Our most recent information will show you how to connect with licensed EB-5 Agencies in Mainland China and Hong Kong and how to establish a relationship that will become the conduit for individual Chinese clients and their families to come to America by investing in businesses that help them achieve their immigration dreams and, at the same time, help to build the U.S. economy.

“How to Find Chinese Investors, Clients & Agents for Your EB-5 Programs & Services” is also specifically identifies existing connections between Chinese EB-5 Agencies and U.S. Regional Centers and the projects they are currently promoting. You do not have to spend hours upon hours of research doing the same work that we have already done for you. There are about 2,000 EB-5 Agencies in China. The book will provide you with detailed information about the most respected of them and their U.S. connections.

We are offering you an opportunity to get a head start into the lucrative world of EB-5 projects in China and Hong Kong.

American Corporate Services, Inc. is dedicated to helping others benefit from the overwhelming amount of business that is available through the EB-5 visa program. Don't miss these opportunities to expand the reach and scope of your firm.

“Our success is helping you succeed.”

Best regards,

Gregory Finkelson
