Dear Dr. Gregory Finkelson,

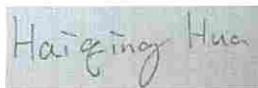

I have read through the contents of the book. I feel it is a throughout guide for sure.

Dr. Gregory Finkelson left me an impression of intelligence and persistence.

EB5 is a comprehensive investment business concept. It involves a lot of expertise and business intelligence, and also a down-to-earth approach.

Namely, as the book entitled itself: "How to Find Chinese Investors, Clients & Agents for Your EB-5 Programs & Services", it is really A Practical Guide for Regional Centers, Attorneys, Developers and Businessmen.

Best Regards,

Haiqing Hua (Oliver)
